## Is A Home Addition Worth It?

When a home runs out of space, there are several options: move, renovate underused space, or construct an addition. Homeowners need to know all possibilities, and understanding the pros and cons of each will help you make the best decision for your situation. If you love where you live, an addition can make the most of your home over the long term.

Whatever you do, it is essential to consult with a trusted design-build partner to help you choose the right path!

Learn more about making the right choice for you and your family in our article, "[Is A Home Addition Worth It?](#)".

Did You Know?

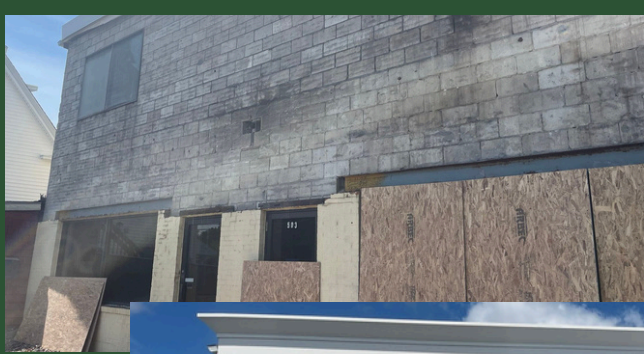

# Mitchell Is Moving!

(down the street...)

If you live in Medfield or nearby you may often find yourself on Main Street. And if that's the case, you may have noticed some big construction happening downtown. Mitchell Construction Group is incredibly excited to say that we are currently working on renovating a new office building for our team to move into in 2025!

Although the exterior of our new home is almost finished, we have a long way to go as we continue to design, demo, and remodel the interior of the building. We are super excited to share this journey, and can't wait to move into our new office next year!

- Carpentry

## Why The Right Home Maintenance Program Will Reduce the Stress of Home Ownership

The modern home is packed with systems, sensors, and devices that provide and control power, communications, heat, water, cooling, and safety. What does all this mean for the homeowner? That proper home maintenance today is a lot more than just slapping on a fresh coat of paint and replacing some burned out bulbs. Making sure your home is properly maintained and watched after can help to prevent a lot of issues, and save you a lot of money.

**Learn more** about how to keep your home at top shape, and take care of arising issues before they cause you problems!

# Our 2024 Annual Cornhole Tournament!

At the start of August we held our Annual Cornhole Tournament! Each year we take a day to gather the entire team together and put our skills to the test. Teams of two are randomly put together and battle against each other one by one until we have our winners!

We would like to give a big shoutout to Boston Baggo Company for hosting our event and allowing it to progress perfectly. Congratulations to this years winners, two members from our Production team, Josh Kinhart & Jeff Ferguson!

1st Place!

Gary Corda & Andy Murphy  
2nd Place!

## All of the Knowledge A Homeowner Needs

Did you know that we sit down each week with our designers, architects, production experts, carpenters, and sales experts to write blogs full of information for homeowners? Whether it's maintenance tips, design ideas, permitting practices, or general information about remodels, you can find the answers to all of your home related questions right [here!](#)
